NetFast.US - Fast Business Website Creation and Hosting for the Internet.

NetFast.US - Fast Business Website Creation and Hosting for the Internet.

Fast, Secure, Modular, Scalable, Multilingual, Searchable, Search Engine Optimized Internet Websites for the Semantic Web.

Featuring Drupal web sites and web hosting for businesses.

Basic Business Presentation sites from \$4,999.

E-Commerce sites from \$7,999.

Social Networks and Platforms from \$19,999.

Enterprise Business Corporate sites from \$39,999.

We design, create and host your drupal websites on our super fast netfast managed servers.

This includes automated daily backups, extra backups anytime you create yourself, all the reports you want, etc.

Other netfast features are all included:

Three levels of caching that you can adjust to put into cache only the content you want into cache.

SOLR search - Enterprise level corporate site search,

Wkhtmltopdf - Allow your visitors to create a PDF file of your web pages in real time and save or print it,

Internationalization and localization - We build and host drupal 7 and drupal 9 web sites in over 100 languages, and we can add yours to that list if you become a client. The quality of the translations are up to you - we provide you with a great system to translate everything on your web sites, even things that only search engines can see like metatags, and rdf and xml , semantic web values.

Responsive web sites, mobile first or mobile friendly which include: auto site sizing or having many different sized web sites for mobile and phone devices, tablets, large screens.

Image, Audio, Video HD Audio HD Video - resizable for tablets and mobile devices.

Secure SMTP mail using TLS, port 587, that can be sent at once or in a queue.

Send by email and invite functions so that your visitors can send your web pages to their friends and generate increased traffic and sales for your site.

Search Engine Optimisation with xml sitemaps, rdf semantic web, metatags robots .txt files with URL and URI classes and localizable paths - all of which you can personalize and customize to suit your business and your web site.

E-Commerce platform and functionality built-in.

All sites are extensible and modifiable and have extensive security and anti-spam features.

and much, much more!

Purchase your site or hosting now by contacting us using our contact form with your requirements and any questions.

Thank you for visiting NetFast.US!
